SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Level 1	Level 1	Level 1

Organized Demonstrations, State of California

Per the Cal OES Law Duty Officer:

- The Governor's Office of Emergency Services, Law Enforcement Branch is monitoring several organized demonstrations throughout the State of California.

Cal OES Coastal Region

Helicopter Operations/Training, Lake Mendocino, Mendocino County

On 07/12/16 and 07/13/16, the Mendocino County Sheriff's Office will be conducting a joint training effort between the California National Guard, Cal Fire, Search and Rescue Teams from Lake, Napa, Marin, and Mendocino Counties, the US Army Corps of Engineers, and the Mendocino County Sheriff's Office. This training will occur around Lake Mendocino and around the Cal Fire Station at Howard Forest from 0700 hours through 0000 both days.

- For Safety reasons during this training the US Army Corps of Engineers has closed the South Lake Mendocino Wildlife Area, including all hiking trails east of the Lake Mendocino Dam to the general public. These areas will re-open on 07/15/16.

San Francisco Bay Ferry Service Disruption

Due to major engine maintenance, the SF Bay Ferry will be out of service for the 0800 hours Vallejo departure and 1730 hours SF Ferry Building (SFFB) departure for the next two weeks. From 07/11/16 through 07/22/16, there will be two buses serving the 0800 hours Vallejo departure and two buses serving the 1730 hours SFFB departure.

San Mateo Bridge Lane Closure

On 07/13/16 and for the next five nights (7/13-17/16) Caltrans will close two lanes of the San Mateo Bridge span in order to make permanent repairs to the bridge deck. Crews will be repairing a hole that opened up on the westbound deck, just east of the high-rise section last month. Only two of the three westbound lanes will be closed. The first lane will be closed at 1900 hours. The second lane will close at 2200 hours. The third lane will remain open at all times. The two lanes will remain closed until 0500 hours every night during construction.

SITUATION SUMMARY

Cal OES Coastal Region

BART Service Disruption

On 07/15/16 at 2100 hours until 07/18/16 at 0400 hours, BART will close the tracks between South Hayward and Fremont to perform critical repair work. During the closure a bus bridge will be provided to shuttle passengers between South Hayward, Union City and Fremont stations. Departure Times may not be available during track work.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

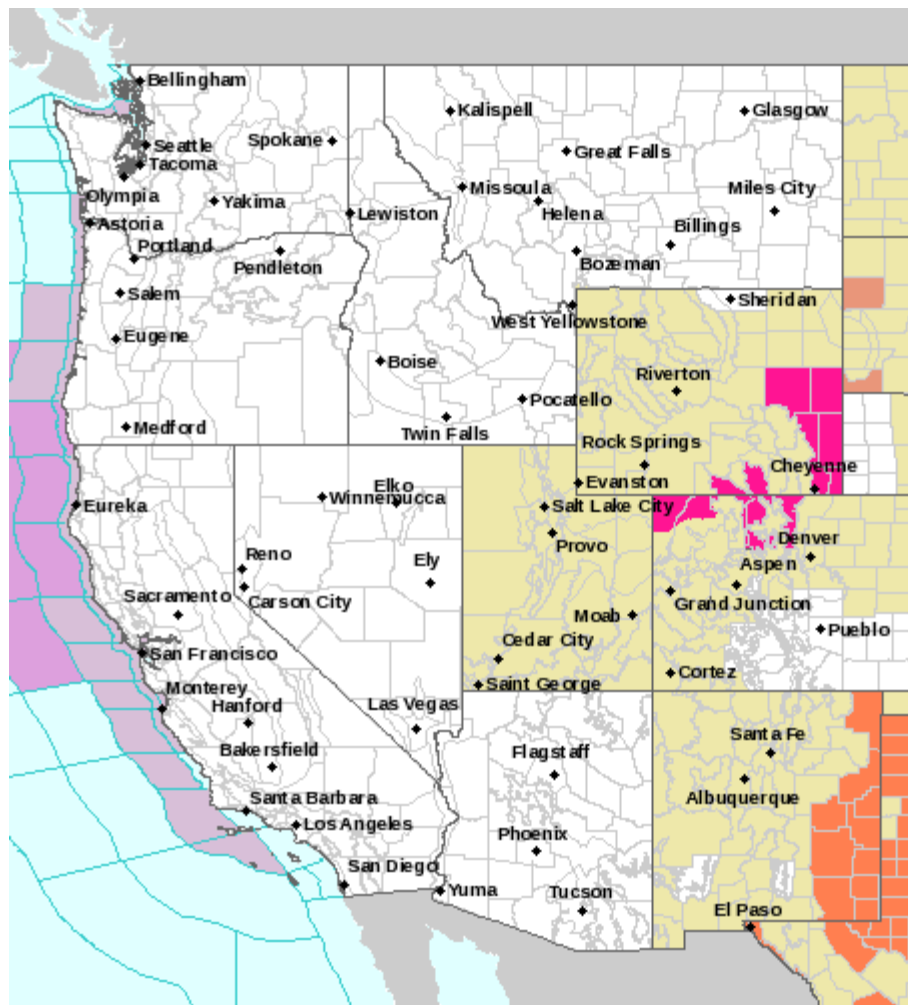

Higher pressure will be slowly pushing north over the region for the next few days, and dry, warmer conditions will prevail. All-in-all, afternoon temperatures will be pretty seasonal for the next 3 days, although Thursday and Friday afternoon highs could be about 5 degrees above normal for most inland areas and around 105 in our warmest valleys. A low currently along the British Columbia coast will be moving SE over the next few days, and this will open up a trough along our coast that will develop further over the weekend to cool temperatures to as much as 5 degrees below normal across Northern California. Confidence is low, but it appears there will be a slight chance of isolated thunderstorms in the far north Sunday afternoon. Any lightning that occurs then should have some moisture with it, but conditions may turn out to be more of a mix of wet and dry. Many areas will see low afternoon RH and only moderate to borderline poor overnight recovery through the 7 day period. Some moderately strong, gusty westerly winds will probably develop this weekend near and east of the Cascade/Sierra crest with gusts of 30-35 mph, and that possibility will have to be monitored for the potential of High Risk conditions. Winds will otherwise have a diurnal pattern of quite light northerly directions overnight becoming onshore or up slope/drainage for the afternoons. There may be a period of gusty overnight north winds in the usual areas favored by those conditions, but speeds will still remain at low-end moderate speeds at best.

SOUTHERN CALIFORNIA

Windy and very dry over the mountains and deserts Friday through early next week. A ridge of high pressure centered over the Desert Southwest will bring a little above normal temperatures through Friday, with 80s to low 90s across the mountains and 90s to 102 in the valleys. The marine layer will be shallow, with morning low clouds and fog only making it over the coastal areas through Friday. A weak Pacific trough will set up over the West Coast bringing a little below normal temperatures Saturday through early next week. This trough will also bring south to west afternoon and evening winds of 15 to 25 mph with gusts to 40 mph to the mountains and deserts starting Friday. The marine layer will deepen bringing morning low clouds and fog into most coastal valley locations Saturday through early next week. Minimum humidity will be mainly in the single digits and teens above and inland from the marine layer through early next week. Isolated afternoon thunderstorms may occur near the Colorado River starting Tuesday.
